- *Slack*
- *Pair Programming*
- *Scram/Agile*
- *Kanban*
- *User Research*

Short Bio

I use to be in different working positions, I spent a lot of years growing my younger generation, but since my youth, I was always dreaming to become a coder. During the pandemic time, I decided finally to follow my dream and reach the goal.

Born in Riga, Latvia. Live in **London s**ince 2005.

Personal

At weekends, I like spending time with my family.

When I have some time for myself, I like to read and listen to tutorials on YouTube, Linkedin and Udemy.

Can talk a lot about education, mnemonics, mind-maps. Walking is my other hobby, as a result I know a lot of hidden routes in London.

Education

2021-2022
School of Code
Chosen from 1800+ applicants to undertake a 16-week intensive full-time coding Bootcamp. The Bootcamp focused on Full-Stack (MERN) latest technologies. Real projects by Agile methodology in teams . Extreme and Pair Programming.
